FOOT/CYCLEPATH LDT BÍLÁ SKÁLA – HEJLÍČEK: 4 200 m.

Competitors interested in lowering their own carbon footprints (and keeping a possibility to take a beer or two at the E2 stage centre after finishing the race) can go by foot or even better by bike from the event centre (LDT Bílá skála) to the E2 stage centre (Hejlíček). See a map 1:20 000 (<http://interkompas.sosjh.cz/wp-content/uploads/mapa-Interkompas45.pdf>) for a recommended way going through the forest. At the first 500 m, you will go on a small path/meadow with an elevation of about 40 m. The rest (3 700 m) goes on a newly renovated asphalt forest road with additional elevation of about 30 m.

The beginning of the path (1 800 m) is the same as route to E1 start. The blue-white ribbons from Friday will be left in the forest till Saturday. After passing the place of E1 start, follow the asphalt road (the only one there) for additional 2 400 m. There is only one sharper turn to left by about 90° on the way. It is also allowed to cross (by foot) the forest area of E1 while using the E1 O-map.

PARKING

Parking is always located in a close proximity to the stage centre, see the event centre plan (LDT Bílá skála, E1 and E3) and the E2 stage centre (Hejlíček). A parking fee of **50 CZK / car / whole stay** will be collected in cash upon the first entrance. Campers accommodated in the camp may park near their tents (see camp instructions on page 2).

MAPS, CONTROLS DESCRIPTIONS

Scale 1:10 000, eq. 5 m for all stages and classes, map specification ISOM 2017-2. Prepared by Jan Beneš and Arnošt Komárek during 2017–19, revision of the whole map in 06–08/2019. Maps will be printed on a waterproof material pretex.

Bark beetle: The competition area is located on the edge of a large area where majority of all forests has recently disappeared due to the bark beetle invasion. Also in the competition area, new (not small) clearings and fences are appearing in a previously unprecedented pace. Even though the last revision of the map was conducted in the week from 11th August, we cannot rule out new clearings/fences present in the forest but not in the map. Thanks for your understanding.

Control descriptions: Available in a pictogram form in the **centre of each stage**. There are **no** control descriptions printed on a map. They will also **not be available** at start. Control descriptions for the three stages will be distinguished by different colors.

Special map symbols: **brown triangle:** platform, **blue square:** well, concrete ring (well looking), **green cross:** root stock, **black square:** (ruin of) a small WWII fortress, **black cross:** wi-el line pylon, triangulation pole, other manmade object, **black circle:** border stone.

Vegetation boundary is mapped by using the green dashed line.

Notice to those not yet fully familiar with the ISOM 2017-2 map specification. The symbol num. 418 (small green bullet with a white circle in the middle: prominent bush or (smaller) tree) also appears in the map and is used as object of some controls. The respective object is marked just as “a prominent tree” in the control descriptions. That is, “a prominent tree” is not always a huge tree.

CONCOMITANT EVENT, STAGES

Detailed information related to the concomitant event and to the stages are available in the second part of this Bulletin on pages 8 – 9.

TRAINING

During Monday 26th August, controls for two training courses will be distributed in the forest. You will find a training (smaller) lampion on the control points (unless it is taken / carried by passing tourists). Descriptions of controls will be printed on the map. Start and finish are always near the recommended parking place, they will not be marked in the terrain. Maps will be available from staff of restaurant/buffet of LDT Bílá skála (till Friday morning) and at registration office for CZK 10 / piece. For more information on the individual trainings see page 10.

If you decide to visit it, we also recommend restaurant „Č.P. 4“ (<https://www.facebook.com/Restaurace-čp-4-1373529909426583/>) next to the castle to take a dinner or just a beer (or two).

For more serious injuries/cases, the *Jindřichův Hradec Hospital* with an emergency (also surgical) is available, entrance from the roundabout on the fork of Vídeňská and Jáchymova streets, [49.1398203N, 15.0059164E](https://en.mapy.cz/s/3wYHc) (<https://en.mapy.cz/s/3wYHc>). Electronic, SportIdent. The SI units **will not be** set in the contactless Beacon mode. Each SI card might be used at most once within each stage. The competitor is obliged to clear the SI card in the first corridor before the start and to check it in the second corridor. In the third (last), start, corridor there will be a possibility to switch off the contactless capability of SIAC cards (SIAC OFF).

In case of failure of SI unit, use the pin punch to mark the "R" fields placed on the edge of the map. Maps with this stamping must be handed over in the finish area for inspection.

SI reading will always be located in the finish area. The competitor is obliged to have his/her SI card read in the finish area even if (s)he does not complete the race.

SI rent – CZK 50 / stage. Compensation, if rented SI card lost: CZK 800.

Time is recorded in complete seconds.

START

Interval start in E1 a E2, chasing start in E3. The way to the start from the stage centre (LDT Bílá skála on Friday and Sunday, Hejlíček on Saturday) is marked by blue-white ribbons. It is necessary to arrive at start E1 and E2 3 minutes in advance, at start E3, competitor must report him/herself 6 minutes in advance.

Competitors of classes HDR, P and T start from a separate corridor at any time **while following instructions of the organizers**, but no later than at **the start of the last competitor of other categories**. The start SI unit must be punched. The map is taken only by the competitor. The companions (friends, siblings, parents, aunts, uncles, etc.) **may not** take another map. Passing an HDR track with a stroller might be quite difficult (perhaps requiring a strong man) in some parts of the track.

FINISH

The competitor finishes the race by punching either of the two finish SI units placed at the finish line (E1 and E2). In E3, the ranking of competitors on the finish line will be determined by the finish referee. The competitor punches the finish SI unit placed after the finish line according to instructions of the finish referee.

The maps will not be taken away in the finish area. We rely on your Fair Play.
